

# O6. Health and Safety Policy

## Outcome statement

A safe and healthy workplace is maintained by providing the information, training and supervision needed to ensure the health and safety of all students, staff and other people in the workplace.

## Scoping

The Board is responsible for ensuring health and safety procedures are developed and implemented. However, employees need to be aware of their responsibilities and comply with the Board's health and safety policy and school procedures.

## Delegations

The board delegates to the principal as officer the responsibility to:

- develop and implement health and safety procedures
- ensure employees have the information they need in order to comply with policy and procedures.

## Expectations and limitations

The board will comply with the provisions of legislation dealing with health and safety in the workplace by:

- providing a safe physical and emotional learning environment
- ensuring a health and safety strategy/plan is in place and engagement and consultation on the strategy occurs with workers and the school community
- ensuring (in accordance with the special Seventh-day Adventist character of the school) that no alcohol is provided or consumed at any school-associated events or gatherings.
- providing adequate facilities, including ensuring access and ensuring property and equipment is safe to use and students and workers are not exposed to hazards
- ensuring there is an effective method in place for identifying, assessing and controlling hazards, which includes recording and investigating injuries and reporting serious harm incidents
- having a commitment to a culture of continuous improvement.

The Principal, as officer, has responsibility for implementing this policy and therefore must:

- exercise due diligence in accordance with the provisions of the health and safety legislation and in particular the six due diligence obligations\*
- take all reasonable steps to protect students, staff and visitors to the school from unsafe or unhealthy conditions or practices
- ensure the staff code of conduct is implemented effectively
- ensure there is zero tolerance to unacceptable behaviour, such as bullying, and that there are effective processes in place

- provide a smoke-free and vape-free environment
- ensure a risk analysis management system (RAMS) is in place and carried out
- seek approval for overnight stays/camps/visits attesting first to their compliance with the above
- consult with the community every two years regarding the health programme being delivered to students
- provide information and training opportunities to employees
- advise the Board Chair of any emergency situations as soon as possible
- ensure all employees and other workers at the school will take reasonable care to:
  - cooperate with school health and safety procedures
  - comply with the health and safety legislation and duties of workers
  - ensure their own safety at work
  - promote and contribute to a safety-conscious culture at the school

\* These are to:

- know about work health and safety matters and keep up to date
- gain an understanding of the operations of the organisation and the hazards and risks generally associated with those operations
- ensure the person conducting a business or undertaking (PCBU) has appropriate resources and processes to eliminate or minimise those risks
- ensure the PCBU has appropriate processes for receiving information about incidents, hazards and risks and for responding to that information
- ensure there are processes for complying with any duty and that these are implemented
- verify that these resources and processes are in place and being used.
